What did you like best about this presentation?

Speaker seemed comfortable speaking and seems knowledgeable on topic.

Good info

Everything, well informed, good presenter; good information.

Good refresher

Well presented and summarized. - covered the topic well

Good basic IAQ review

Steps to take to thoroughly investigate an issue. Having affected staff journal their complaints is a great idea.

What constructive changes would you suggest to make the presentation more effective?

6 written in: The topic yes . . . The info ?

Number to call - outside of work for concerns & document. c/o - independent collection of c/o to map trend if employer doesn't.

Handout of powerpoint slides so we have info to take w/us & don't have to struggle to take notes & listen. It's easy to miss stuff while trying to take notes.

More detail

Presenter should work on interfacing with audience. She's comfortable lecturing, but variety would be more stimulating.

Suggested Topics for next year:

- OSHA Equipments etc. - How To Find This!

- How to make employer responsible & accountable to deal with c/o & resolve.

Consult w/A good old 100 top - Oder finds presentation. (???)

Great BLANK / Maintenance (can't make out word)
