Session: Ladders and Scaffolding

Speaker(s): Tom Odegaard

Number of Evals: 17

	Average
	Bad) 1 - 2 - 3 - 4 - 5 (Good
1. This session was well designed (e.g. pacing, Q A time)	3.2
2. I got information from this session I can use immediately in my job.	3.4
3. The speaker used good presentation skills.	3.1
4. The speaker appropriately involved participants.	3.1
5. This session met my expectations	3.0
6. Did you like the topic?	3.6

What did you like best about this presentation?

Multi-Media

The videos were good

Videos great.

Good video, interesting statistics and where to get some more information. I realize how easy it is to take ladders and scaffolding with complacency.

Fatal fact case studies

What constructive changes would you suggest to make the presentation more effective?

!More detail on Fall Protection during scaffold & Ladder use.

!Not enough time.

!It's such a hugh topic, perhaps break it up into several sessions.

!19 minutes is too long (video) although entertaining, no factual use.

!Video was amusing, but I was hoping for more tech info related to gas industry it was more about training tools.

!Too basic, just showed video

!Update slides to DOSH Standards and have instructor familiar with the material.

Suggested Topics for next year:

-Actual codes sub para 2 1926.450-454

Gas Industry Ladders & Scaffolding
